MOULDING & MILLWORK CATALOG

Leon in his Brooklyn, NY, chair factory in 1918

Leon Kahan 1889-1968

Leon's original woodworking tools displayed in Interstate Design Center · Greenwich, CT

# T R A D I T I O N

Leon Kahan, a young Romanian immigrant, mastered the art of wood carving at the turn of the 20th century and went on to found Interstate + Lakeland Lumber two decades later. Since 1922, Interstate + Lakeland Lumber has been supplying Westchester and Fairfield County's finest architects, designers, builders and contractors with quality millwork and building materials. Over the years, by establishing an impeccable reputation, Interstate + Lakeland Lumber has emerged as a leader and innovator in the architectural millwork field. This revised and improved catalog of moulding and millwork offers an updated collection of our stocking moulding profiles with over 100 new profiles. In addition, we have expanded our abilities to create exceptional custom architectural millwork projects. Whether it is 1922 or 2022 and beyond, traditional ideals and quality craftsmanship, with which Leon Kahan started Interstate + Lakeland Lumber, will continue to be the foundation of the IL Custom Millwork Shop.

# INSPIRATION

One of the innovative masters of modern architecture, Mies van der Rohe, said, "God is in the details." This revised IL Moulding and Millwork catalog is designed with that very thought in mind. As one flips through the pages, he or she will be able to select moulding profiles that, when grouped together, can create and inspire some of the most beautiful interior spaces. In addition to the hundreds of moulding profiles in this catalog, there is a section dedicated to Interstate + Lakeland Lumber's Architectural Millwork department. The combination of the moulding profiles, coupled with our ability to design and manufacture them, makes for a unique combination. I hope that as you turn through these pages of IL Mouldings & Millwork, the details will inspire you just as they inspire us.

Sheldon Kahan  
President

# TABLE OF CONTENTS

## ■ GREENWICH COLLECTION PROFILES

OVERVIEW	8 – 9
CASINGS	10 – 32
Casings, Casings with Back Bands, Back Bands, Plinths, Quirks	
BASEBOARDS	33 – 43
Baseboards, Basecaps, Shoe Mouldings	
CROWNS	44 – 80
Crowns, Fascia Boards, Dentil Trim	
CAPITOL MOULDING	81 – 84
SOLID CROWNS	85 – 86
PANEL MOULDING	87 – 92
CHAIR RAILS	93 – 98
Chair Rails, Wainscot Cap, Picture Moulding	
CUSTOM BOARDING	99 – 100
WINDOW STOOLS	101 – 102
EXTERIOR PROFILES	103 – 115
Balusters, Rails, Ext. Casings, Ext. Panel Moulds, Brick Mould, Ext. Crowns, Sub Sills	

## ■ CUSTOM MILLWORK

OVERVIEW	118 – 119
CAD & SHOP DRAWING	120 – 121
RESTORATION	122 – 123
EXTERIORS	124 – 125
CUSTOM PVC MILLWORK	126 – 127
RADIUS & CURVED WORK	128 – 129
INTERIOR SPACES	130 – 131
ARCHITECTURAL ELEMENTS	132 – 133
FRONT ENTRYWAYS	134
CABINETS	135
INDEX	136 – 139

**IL GREENWICH COLLECTION™**

# THE PROFILES

## **A Comprehensive Collection**

The IL Greenwich Collection™ is a comprehensive moulding program that is divided into profile categories based upon the product's application. To ensure that the proper mouldings are specified in your project, simply write the corresponding IL moulding number in your specifications, or in your architectural plans.

## **In Stock and Ready for Prompt Delivery**

Our 100,000-square-foot millwork distribution center, located in Bethel, CT, stocks all of the IL Greenwich Collection™ moulding profiles shown in this book. The stocking profiles are run in solid poplar substrate with machine-applied primer. This allows for greater stability of the IL product and prompt installation upon delivery. For exterior applications, such as cornice work, window and door trim, balusters and more, IL profiles are available in Spanish cedar with machine-applied primer.

### Custom Runs and Profiles

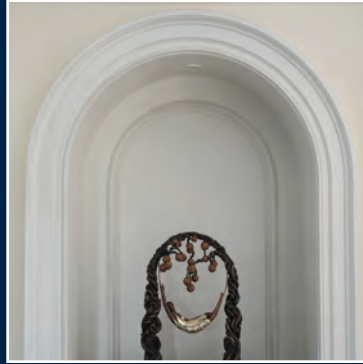

With lead time, any profile can be run in the material of your choice, including hardwoods, flexible moulding, MDF and PVC. We also boast an expansive collection of custom knives. A full catalog is available online ([www.interstatelumber.com](http://www.interstatelumber.com)) in the moulding section, which includes scaled versions of popular IL profiles as well as other custom profiles created for special projects. All IL patterns can be run in radius, elliptical, and pattern shapes for exterior and interior applications. Plus, the IL Custom Millwork Shop can match profiles or produce custom moulding to your specifications. Our knowledgeable and experienced staff can assist you in every phase of your moulding and millwork order to ensure that it is a complete success.

*Please note that the IL profiles shown in this catalog are representations of the actual mouldings we produce. Dimensional tolerances are closely held, but slight variations to actual shape may occur.*

Indicates a profile in our new Scaled & Graduated section, which offers the opportunity to create a unified look throughout the house when ceiling heights vary and a smaller or larger version of the same profile may be desirable.

CUSTOM MILLWORK

## The IL Custom Millwork Shop

Custom Millwork has been a division of Interstate + Lakeland Lumber Corp. since the birth of the company in 1922. Over our proud 100-year history, the shop has evolved into its present configuration. With over 20,000 square feet of space dedicated to millwork production, combined with state-of-the-art machinery and technology, we are able to produce a wide range of millwork projects in a timely fashion. The millwork sales, estimating and production team all have an average of over 25 years in the millwork field. This experience, combined with our modern facility, allows us to work with architects, designers, custom and speculative builders, to create quality millwork that will truly enhance any type of design project.

## Turning Drawings into Dream Homes

Once a plan is submitted, our experienced estimators review the plan and compile a list of materials needed to create a particular project. If further clarification is required, our in-house CAD department will create a shop drawing to indicate how the project

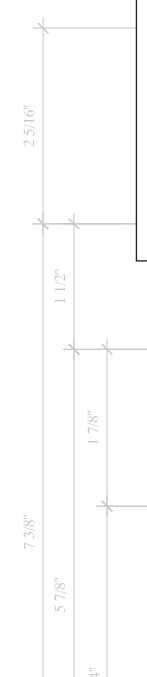

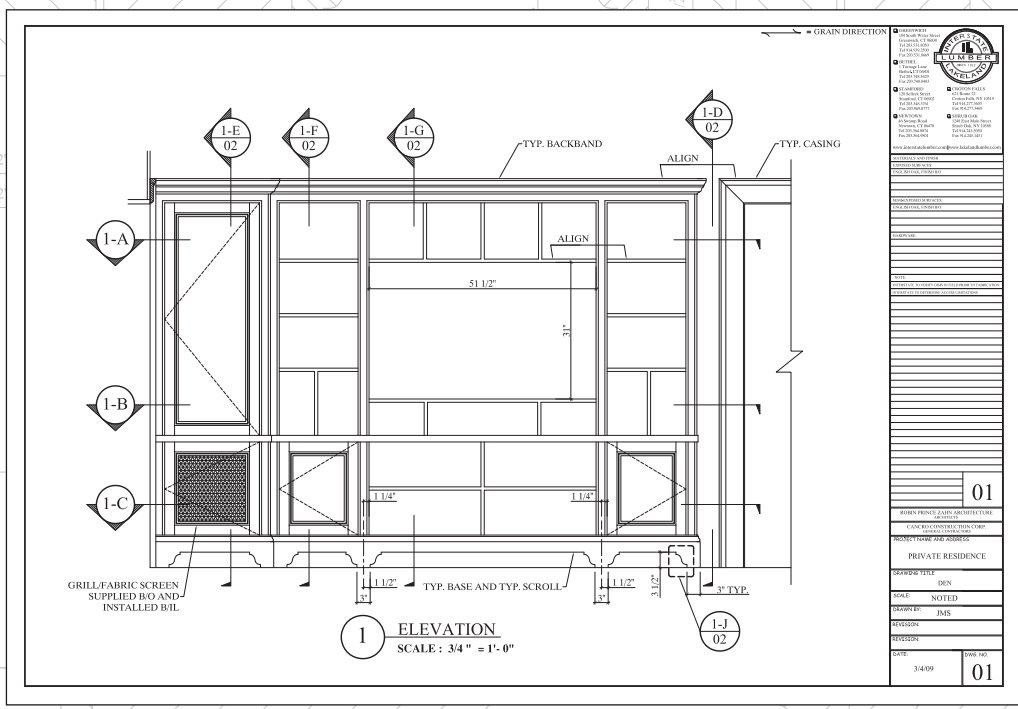

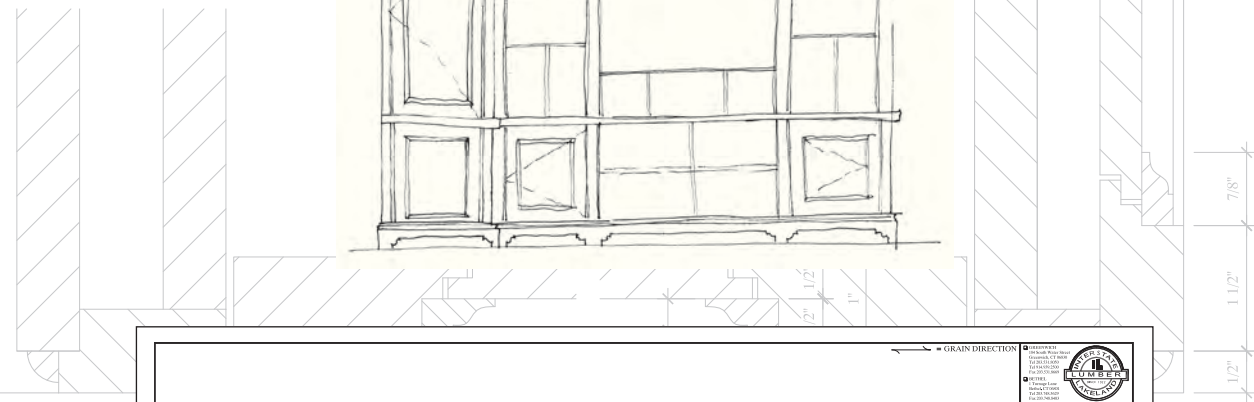

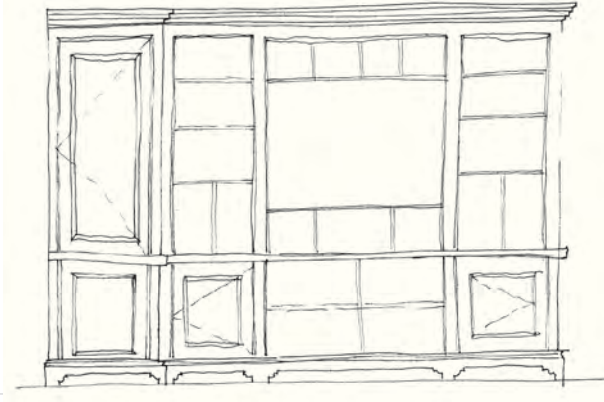

will be built. This allows everyone to have a clear image and understanding of what materials are being supplied and how they will be used. Once the drawings have been approved, if necessary, three-dimensional mock-ups can be provided to see exactly how the finished profiles will look in the designated space. After delivery of the materials to the job site, a sales representative will stop by to assist with any field questions that might arise to ensure a quality finished product.

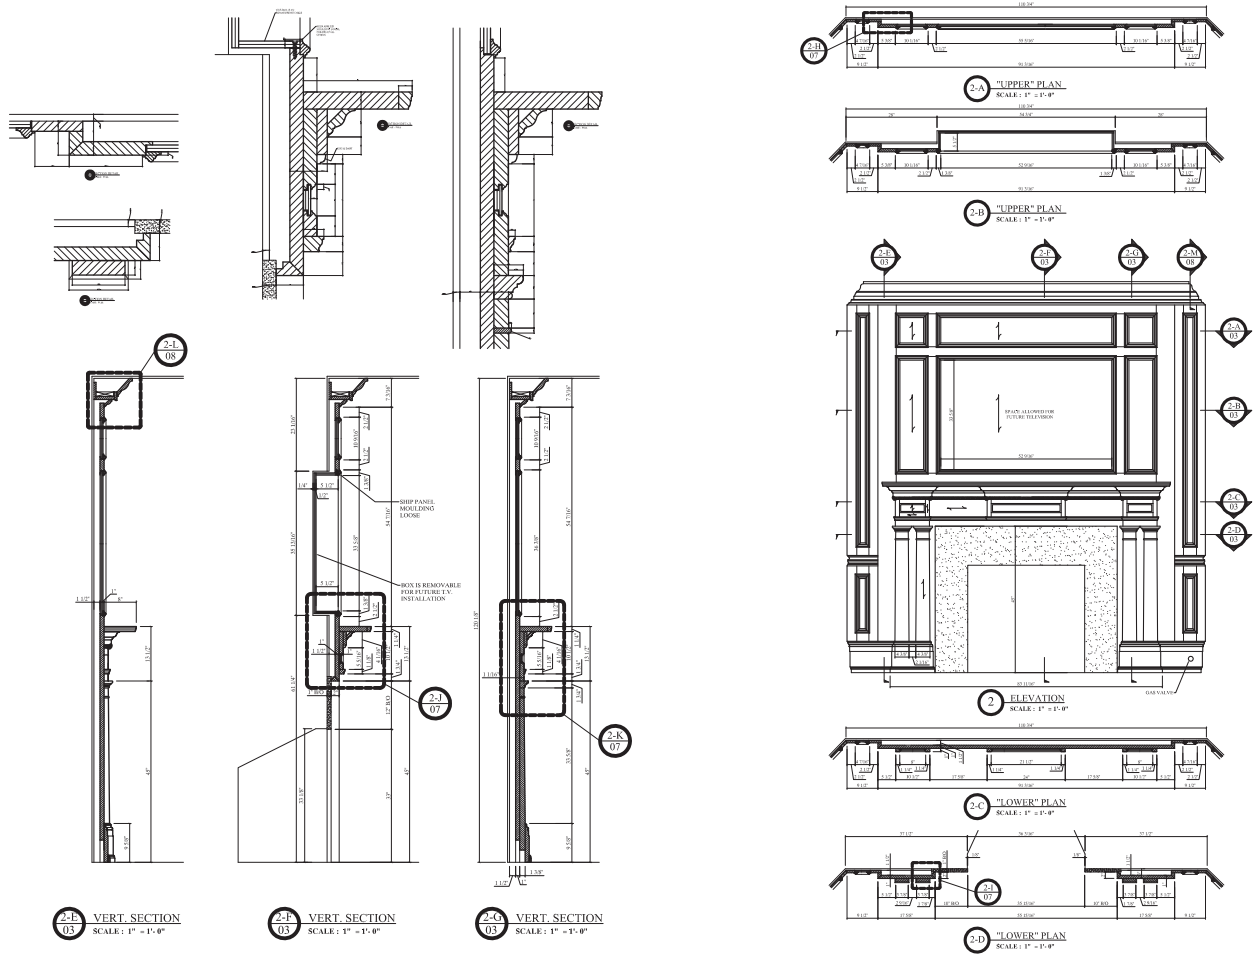

### **Interstate Design Center: Your New Showroom**

In 2008, we opened our award-winning window, door and millwork showroom. It is interesting to note that this showroom occupies the space that housed the company's first millwork shop from 1922. This newly renovated space was created to provide an environment where one can come with their ideas and plans and begin the exciting process of having their drawings turned into a beautiful home with exceptional architectural trim and millwork. We encourage you to stop in or call to make an appointment with our knowledgeable millwork sales staff.

## CAD & Shop Drawing

In 2007, we welcomed a CAD artist to our staff. Some projects need a working set of drawings due to their complexity, and at times, a shop drawing can ensure that a simple project remains simple, like in the case of a custom casing with accompanying plinth, or a custom knife drawing for a raking crown. Once we have received plans, have provided our estimate and are awarded the job, the shop drawing process may begin. Although we are not in the drafting service business, we understand the necessity of shop drawings and their pivotal role in the final fabrication of the project, be it a custom library or custom exterior architectural detail. Shop drawings are assurance that your project will be delivered with all the correct specifications and design details as they were originally created.

**AutoCAD is used  
to produce our  
architectural  
drawings.**

King post built to match the existing architectural detail on an extension to the original building.

Ornate bracket built to replace the original architectural detail.

Newel post and rail was rotting and stained.

Rebuilt to match existing and maintain the unique look of the home.

## RESTORATION

The IL Custom Millwork Shop specializes in restoring historical architectural elements and details. We have been called on to create mouldings to match existing profiles for additions, restore original cornices, match ornate Victorian brackets, carve detailed historic blocks, replace custom railings and newel posts and much more. Accurate, quality Restoration work helps to maintain the unique character of your dream home.

Cedar brackets add detail to this re-creation home.

Custom trim work complements this arch top window dormer.

Blocks and columns create a stately portico.

Screened porch with interchangeable panels.

Ornate brackets line a Victorian-style building.

Mahogany Pergola shades a patio.

## EXTERIORS

The IL Custom Millwork Shop can create a range of exterior architectural details to add charm and character to your dream home projects. Our projects have included pediment heads, brackets, columns and pilasters, cornices, posts and rails, pergolas, complete screened porches with interchangeable storm/screen panels, rafter tails, shutters and much more. We also create exterior millwork in Cellular PVC (Please see the Custom PVC Millwork section on the following page).

### INCLUDING

- Brackets**
- Cornice Parts**
- Columns & Pilasters**
- Posts & Rails**
- Pergolas**
- Pediment Heads**
- Rafter Tails**
- Screened Porches**
- and more**

Cellular PVC arches sit above custom columns in this charming entrance.

Custom Cellular PVC trellis work was a perfect complement to a pool area where moisture is commonplace.

Cellular PVC cupola topped with copper.

Cellular PVC is an ideal material for radius work, as seen on this balcony.

## CUSTOM PVC MILLWORK

Quickly taking the building world by storm, Cellular PVC materials are a smart choice for exterior projects such as cupolas, newels, rails, balusters, columns, exterior trim and more. The IL Custom Millwork Shop has produced many incredible projects that may have otherwise been impossible in natural wood. We are so excited about our advancements with Cellular PVC that we have opened a showroom/workroom dedicated to our custom PVC millwork.

Curved cornice, window and casing on curved stairwell.

Custom curved exterior trim produced in AZEK®.

Curved casing wraps this arch top window.

Archway in the River Room at Interstate Design Center.

Curved panel jamb and custom door in cherry wood library.

Curved cornice and paneled jamb lead to curved stairwell.

## RADIUS & CURVED WORK

We are able to handle any type of arch or radius work, from basic to complex. The highly desirable curved work is a daily request at the IL Custom Millwork Shop. With only 6" of a moulding sample, we can create a match and give it a curve to your specifications. For interior trim and panelwork, exterior casings, jambs, railings and more, the IL Custom Millwork Shop stands ready to add the finishing touch to your dream home project.

### INCLUDING

- Arches**
- Curved Casings**
- Curved Panels**
- Paneled Jambs**
- Curved Crowns**
- Curved Baseboards**
- Curved Doors**
- Convex or Concave**
- and more**

Repeated arched openings enhance this traditional space.

Den wrapped in reclaimed antique heart pine.

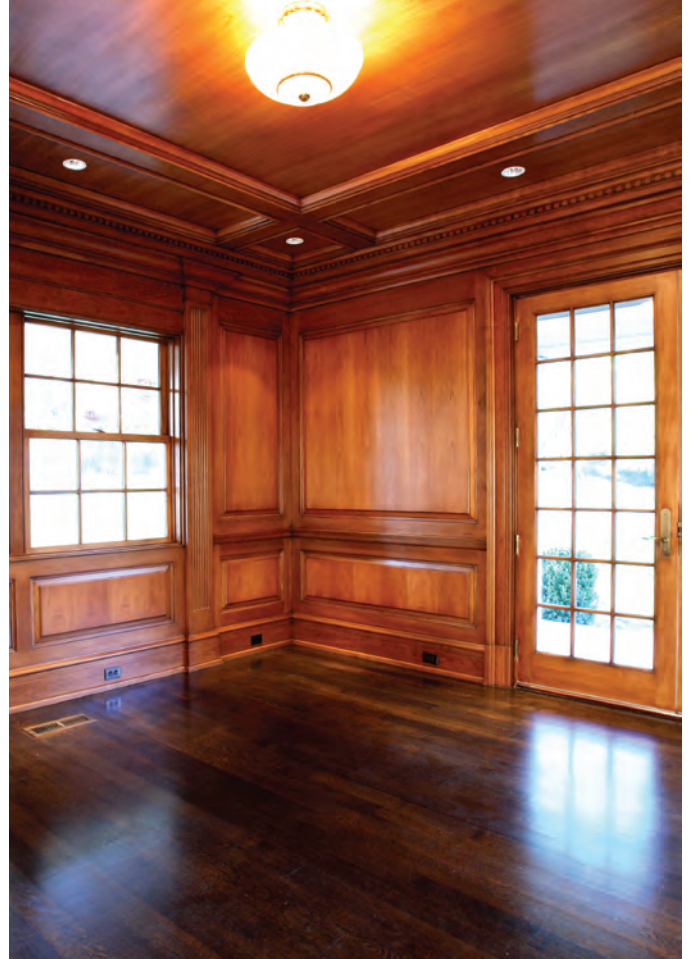

Elegant foyer with curved panels, casings and crowns.

Custom boarding warms the dining area's walls and ceiling.

Cherry wood library embellished with panels and custom mouldings.

## INTERIOR SPACES

Custom Millwork helps to create remarkable rooms complete with warmth, and rich with interest. Explore the natural beauty of wood with book matched layered-up veneering or profiles run from reclaimed lumber. Wall surfaces can be enhanced with custom panel work or boarding. Our portfolio is filled with examples of every kind of room including custom libraries, barrooms, elegant foyers and much more. Excellent design combined with expert installation of our quality craftsmanship equals gorgeous rooms in your dream home.

### INCLUDING

- Custom Libraries
- Book Matched Veneers
- Reclaimed Wood
- Panel Work
- Custom Boarding
- Radius & Curved Work
- Formal Rooms
- and more

Unique cornice and pilaster with appliqué case this opening.

Custom library details in the River Room at Interstate Design Center.

Fluted pilaster in cherry wood.

Ornate custom mantle with carvings, appliques and mouldings.

Custom cornice with blocks and crown moulding.

Key block on custom curved cased window with compound crown above.

## ARCHITECTURAL ELEMENTS

The IL Custom Millwork Shop specializes in creating and recreating traditional architectural millwork. Provide a photo or sketch with rough dimensions and we can construct a unique architectural element. Over the years we have completed work on mantles, pilasters, columns, arches, panel work, coffered ceilings, dentil blocks and more. In addition to these architectural elements we carry a full line of embossed profiles and ornaments from White River™ and Ornamental Mouldings®. Houses become dream homes when embellished with fine architectural elements and details.

### INCLUDING

- Mantles**
- Pilasters**
- Columns**
- Arches**
- Coffered Ceilings**
- Key Blocks**
- Dentil Blocks**
- Appliqués**
- and more**

## FRONT ENTRYWAYS

A front entryway helps to create a transition from the outside to the inside of a home. The IL Custom Millwork Shop has created front entries that include custom porticos, paneled jambs, and doors in a variety of styles and species of wood. We have the ability to work with something as simple as a sketch or photo as well as with a sophisticated shop drawing. Let our staff help create a unique and inviting front entranceway to your dream home.

## CABINETRY

The IL Custom Millwork Shop has been asked to produce cabinetry and built-ins throughout the years. We recently added staff with the refined skills needed for this specialized task and are proud to consider Cabinetry and Built-ins a new division of our Custom Millwork Shop. When your projects call for Cabinetry and Built-ins, you can rely on the IL Custom Millwork Shop.
